

## The Burglary Record

is most consistent. Every year's statistics of crime show alarming activity on the part of the midnight depredator. Month in and month out he is pushing his nefarious enterprise to a profitable issue. Guard against burglars by insuring your valuables with the PACIFIC COAST CASUALTY CO. The rate is low. The dependent benefits are of incalculable magnitude.

The above company also insures Show Windows and Show Cases.

177 S. KING STREET.

## HILO WILL CELEBRATE FLAG RAISING DAY

There Will Be Good Races and a Baseball Game on August 12--Remarkable Activity in Kilauea Crater.

HILO, July 28.—The Hawaii Jockey Club are planning quite an extensive meet for Saturday, the 12th day of August—Flag Raising Day. The events are to be pulled off in the afternoon at 2 o'clock p. m. There will be another test between the ball twirlers of Paaloa and Hilo, and the former claim that they are going to give the latter a run for their money. They have been practicing since the 4th of July and their team work is much better than on that occasion. The Hilo boys will hold their own on the diamond. A good game of baseball is assured. There will be a half-mile match race between Phillip and St. Yuses. Admiral Dewey and Ned McGowan may trot a three heat mile, and there may be other entries in this race. A luna race will also be run. Other entries will be made up if material in the form of horseflesh is offered.

### IN RECEIVER'S HANDS.

Upon the application of J. G. Serrao, one of the partners, the firm of A. M. Cabrinhas & Co. was placed in the hands of a receiver on Saturday last. The firm was originally composed of J. G. Serrao and John Vierra. The latter withdrew sometime ago and William Fernandes bought his interest, continuing until he engaged in contracting with a relative, Anton Cabrinhas, an employee of the Hilo Mercantile Co., took his interest and continued the business with Mr. Serrao as partner under the name of A. M. Cabrinhas & Co. Of late there has been some dissatisfaction and from an advertisement which appeared in this paper last week Mr. Fernandes has resumed his interest in the business, but retained Cabrinhas as manager.

This advertisement culminated in the court being appealed to to dissolve the partnership and Judge Parsons appointed A. Humburg receiver to estimate the value of the respective shares. There was no objection to this plan on the part of either partner; in fact, they were willing to refer the matter to Mr. Humburg without going to court, but he preferred to take the safest way. The assets of the firm are placed at between sixteen and seventeen thousand dollars, but how much of this is good has not yet been determined. The liabilities will amount to nearly twenty-four thousand dollars.

### CRATER VERY ACTIVE.

On Sunday night more fire and lava and general activity was noticed in Halemaumau than at any time during the eruption this year. A large cone has formed in the center and lava and boulders were thrown a hundred feet into the air. The roar and pyrotechnic display is awe-inspiring. The bright glow is very distinct from the Volcano House veranda. If the present activity continues in its present intensity, Halemaumau will soon be overflowing into the main floor of Kilauea as in 1892 and 1893.

### CHANCE TO GET LAND.

Sub-Agent Geo. H. Williams, who was recently in Honolulu, has brought back word that a large area of government land under lease to the Hakalau Plantation Company will be put up for public sale at an early date. The lands referred to are Lepofoa, Kaunihio, containing 400 acres, the lease to which expires January 1, 1906. The Kawiki-Wailea leasehold contains 5590 acres, which expires June 15, 1906. In the Opea-Peleau tract there are 1050 acres under lease, which expires July 22, 1906.

If there are applicants, all of these lands will be divided into homesteads for settlement, if not they will be leased in bulk under the Land Act.

### HILO NOTES.

Attorney W. S. Wise is said to have furnished an opinion at the request of the executive committee of the Young Men's Republican Club relative to the legality of the appointment of policemen by Sheriff Keolanui. It is said to be against the sheriff. Carl S. Smith, consulted by R. A. Lyman for the same purpose, has rendered a similar opinion. Both were opposed to the views advanced by the county attorney.

Judge Matthewman and his wife returned to their home in Kona last Saturday. The judge cleaned up a number of cases in which Judge Parsons was disqualified.

Mrs. John A. Scott is very much improved and has been sitting up since Friday of last week. The quarantine was lifted from the Scott house on last Saturday.

S. M. Damon was the guest of Mrs. E. D. Baldwin during his stay in Hilo. The son of John Napier who met with a very serious accident to his left

arm several months ago is gradually regaining the use of his affected member. The doctors at the coast could not give any assurance of effecting an absolute cure, so the father returned without the performance of an operation.

During the voyage of the Amy Turner to Hilo she was for three days in one of the worst hurricanes ever encountered by Captain Warland. For two days she did not have an inch of canvas spread. It was the same high wind that Hilo experienced the day after it struck the Amy Turner, five hundred miles from shore.

Miss Emelle Peck and Dr. O. E. Wall, of Honolulu, will be united in marriage at the residence of the bride's parents, Puueo, next Thursday. The invitations are limited to the immediate family and intimate friends.

J. C. Moine, manager of the Hilo Electric Light Co., Ltd., has made a proposition to the Board of Supervisors for the maintenance of street lights under the county. The responsibility of the territorial government for the expense of street lighting for Hilo terminated on July 1.

It is rumored that Captain Matson has made arrangements with the Oceanic S. S. Co., whereby tourists are to leave San Francisco on the Enterprise, visit the Volcano while the Enterprise is in Hilo, then go to Honolulu and return by the Oceanic liners. A special rate to encourage the tourist trade is to be fixed at \$125.

The Hilo band has a petition to the supervisors, numerous signed, requesting remuneration for their services as musicians and agreeing to give six free concerts a month.

The largest shipment of coffee from Hilo left on the last Enterprise. About 47 1-2 tons of coffee of \$12,000 valuation were shipped. The next Enterprise will take a still larger shipment.

L. W. Haworth, formerly editor of the Hilo Tribune, is now the editor of the Tonopah Sun, Tonopah, Nevada. He reports his work agreeable, his new locality prosperous, and he is making "a good thing."

F. Souza was a departing passenger on the Enterprise last week. He will remain in San Francisco about two months before proceeding to Central America. He anticipates returning to Hilo within the next six months on business.

Isaac Erickson has completed the Kailapana road, and the same has been accepted by the government. He leaves in a few days for Paaloa, where he will erect a cottage for Mr. Patten, manager of the Paaloa store. He will be gone about six weeks.

The S. S. Enterprise carried away over 7000 bunches of bananas last week. It is stated that there were over 12,000 that could have been gotten ready for shipment if there had been room for them. The Enterprise took all that it had accommodation for.

## HAWAIIAN CROPS AND CLIMATE LAST MONTH

The following climate and crop report for June has been issued by the U. S. Weather Bureau:

Temperatures ranged slightly below the seasonal average, but the effect of this thermal deficiency was offset, to a considerable extent, by several spells of sultry weather which occurred at intervals. At Honolulu, the mean daily departure from the normal temperature for June (average of two stations) was 1.3 degrees, the same as during the preceding month. Atmospheric pressure, wind direction, and wind velocity were about normal throughout the month.

Considered by districts, the percentages of actual rainfall, as compared with the normal, were as follows: Hawaii: Hilo district, 139 per cent, ranging from 113 per cent at Hilo to 184 per cent at Honohina; Hamakua district, 150 per cent; Kohala district, 192 per cent; Kona district, 84 per cent; Kau district, 112 per cent, but very variable within short distances and not well distributed throughout month; Puna district, 150 per cent (estimated); Maui: variable, from 0 per cent along portions of the leeward coast to over 200 per cent (estimated) in certain windward sections of eastern Maui. Oahu: Koolauloa district, 90 per cent; Koolau district, variable, from 65 per cent at Waimanalo to 146 per cent at Ahuimanu; Honolulu district, 75 per cent; Ewa district, variable, from about 35 per cent in the lower levels to 90 per cent in the Koolau uplands (estimated); Waianae district, variable, from 10 per cent along the coast to 50 per cent (estimated) in the mountains. Kauai: Waimea district, 35 per cent (estimated); Kona district, variable, from 87 per cent at Koloa to 202 per cent at Makaweli; Puna district, 205 per cent; Northern districts, 148 per cent. Conditions throughout the month

## A Genuine Clearance Sale

An Event Which Will Cause Immense Enthusiasm Among the Thrifty Housewives of This Fair City.

Some time ago we came to the conclusion that certain departments of our store must be cleared out.

This clearance is for the purpose of making room for the new stock our Mr. Blom will purchase in the States during the month of August. All the goods placed on sale are this Season's stock and in perfect condition.
